RE: Product Discontinuation

Sclerodine® 6 Injection

(Iodine 600mg/10mL and Sodium Iodide 900mg/10mL)
5 x 10mL vials

Dear Customer,

Omega Laboratories Limited regretfully announces that Sclerodine® 6 will no longer be commercialized effective immediately.

The product will no longer be commercialized due to issues related to the active pharmaceutical ingredients (API) for which supply from a manufacturer in-line with current regulatory requirements cannot be secured.

Omega Product Code	Product Description	DIN	Inventory Status
L0010037	Sclerodine® 6 Injection (Iodine and Sodium Iodide) 5 x 10mL	02020793	No sellable units available

We wish to apologize for any inconvenience this product discontinuation might cause you and your patients and sincerely thank you in advance for your understanding and cooperation.

Should you require further information, please do not hesitate to contact our Customer Service at PO@omegalabs.ca or 1-800-363-0584 option 3.
